

1

Most Embeddable Feedback Platform

Purpose-built for API integration, you can seamlessly and quickly integrate Qrvey into your own solution. Integration takes just a day and your users won't even notice the non-native solution.

2

The Only Appified Platform

Whether it's a survey, NPS, poll, quiz or trivia, you can use one platform to run them all. No need to patchwork your solutions anymore. Your activities and results are in one dashboard, in one place.

3

The Only Complete Feedback Loop

We don't just specialize in collecting the data (asking your questions), and we don't just specialize in analyzing data. We're here to help you collect information **and** understand it with rich features. Ask. Analyze. Act.

4

Quickest & Easiest Feedback Application

A no-training necessary application that allows you to send surveys & understand the results quickly. Likewise, the process for your respondents is the same: easy & quick. By respecting their time, you benefit in getting more responses.
